# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On MAY 16, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
MAY 17 — 25, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of May 27, 1976 (based on reports from exporters during the week ending May 16, 1976, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 advanced by 151,400 metric tons (MT), of which 36,800 MT were increased commitments to the USSR (reflecting transfers from optional origin rather than new purchases by USSR authorities). The largest increases in commitments, totaling 72,600 MT, were to African destinations. Commitments to Africa for the year now total 3.1 million MT, compared with 2.6 million MT at the comparable period a year ago. Commitments to the European Community (EC) and Indonesia increased by 28,500 MT and 26,400 MT, respectively. These increases in commitments were somewhat offset by a decline in commitments to unknown destinations of 92,600 MT. Total commitments for 1975/76 now stand at 31.3 million MT, compared with 30.2 million MT at the corresponding period a year ago.

Outstanding sales of wheat for shipment during the year beginning July 1, 1976 advanced by 456,600 MT, largely reflecting new sales to the Republic of Korea, East Germany, Portugal, and Peru. Outstanding sales for 1976/77 now total 3.2 million MT, compared with 4.3 million MT at this time last year.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 rose by 921,700 MT, bringing this year's total commitment to 42.7 million MT. Corn commitments advanced by 759,800 MT, of which 171,000 MT were increased commitments to the USSR (reflecting mostly transfers from optional origin rather than new purchases by USSR authorities). Some of the other large increases in corn commitments were to the EC, 124,300 MT; Japan, 149,300 MT; and unknown destinations, 169,200 MT. This week's increases in commitments to the EC and Japan have pushed total commitments to those destinations for the year to 8.0 million MT and 5.3 million MT, respectively. Sorghum commitments advanced by 158,000 MT, the largest weekly increase since the week ending November 2, 1975. New sales of sorghum to Venezuela, traditionally the largest US sorghum importing country in South America, represented over 60 percent of this week's total increase. The US sorghum commitment to Venezuela for 1975/76 now totals 324,500 MT, about 30 percent below the commitment at this time last year.

Outstanding sales of corn and sorghum for 1976/77 shipment increased by 331,300 MT and 79,400 MT, respectively. Outstanding sales of corn to date total 4.3 million MT, compared with 2.3 million MT for the comparable period last year.

Rice: The apparent export commitment for 1975/76 increased by 25,000 MT, bringing the total for the marketing year to 1.5 million MT. Sales under PL-480 to Guinea and Syria accounted for over 80 percent of this week's increase.

Soybeans: The apparent export commitment for 1975/76 increased 500,900 MT, primarily reflecting larger commitments to the EC, Japan, Spain, and unknown destinations. During the last two weeks, the growth in commitments, 1.1 million MT, has been comparable with the monthly increases registered for March and April. Exports during the week totaled 277,000 MT, primarily to the EC (140,200 MT), Japan (66,500 MT), Romania (39,500 MT) and Spain (30,200 MT).

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 93,300 MT, primarily reflecting larger commitments to Venezuela, Italy, Ireland, Poland and unknown destinations. Although the apparent commitment for 1975/76 is running behind that of last season - 3.7 million MT vs 5.7 million MT, cumulative exports are up 14 percent or about 380,000 MT.

Outstanding sales have shrunk to 16 percent of the total commitment, compared with 23 percent a month ago and 53 percent at this time last year. The reduction in outstanding sales primarily reflects abundant supplies of soybeans and meal in the US and Brazil.

Exports during the week totaled 71,400 MT, primarily to Italy (27,600 MT), Poland (11,900 MT), Ireland (10,200 MT) and the Netherlands (10,000 MT). So far this season, exports to Eastern Europe are up 32 percent or 165,600 MT.

Cotton: US Upland cotton continued to sell at a brisk pace. The net export commitment increased 186,000 running bales (RB). This was slightly larger than last week's increase and set a new second place weekly record for the season. The increase included 69,000 RB for shipment during the current year and 117,000 RB for shipment during 1976/77. Hong Kòng, Japan and the Republic of China were the largest buyers. Foreign prices firmed as demand improved and foreign offers for delivery this season were few.

Agreements. The Title I, P.L. 480 sales agreements provide for long-term dollar credit for financing the sale of agricultural commodities to developing countries for dollars on credit terms of up to 40 years with low interest rates. Payment terms generally require that a certain percentage of the purchase price of any agricultural commodity sold be payable upon delivery. This is referred to as an initial payment. In addition, sales agreements may provide for part payment in the local currency of the importing country where it is determined that the foreign currencies are needed for the uses specified in subsection (a), (b), (c), (e), and (h) of section 104 and in section 106(b) (2) of the Act. Agreements for such credit sales provide for payment of such amounts in dollars or in foreign currencies upon delivery of the agricultural commodities. Currency payments may be considered as advance payments of the earliest installments.

Purchase Authorizations. After an agricultural commodities agreement has been signed, the importing country applies to the OGSM for issuance of a purchase authorization (PA). The PA includes such details as the particular grade, class, or type of commodity to be purchased; the approximate quantity of the commodity and the maximum dollar amount authorized; and the contracting and delivery periods. Normally, contracting begins seven days after the date the PA is issued.

The importing government then purchases the commodity from U.S. suppliers who have been approved as eligible suppliers under the Title I program. Suppliers must register their sales with USDA to obtain approval of the price and other contract terms. When the commodity is delivered to the U.S. port, the supplier sends the required documents to the designated U.S. bank, which pays the supplier in dollars. The Commodity Credit Corporation (CCC) repays the U.S. bank in dollars for eligible payments made against proper documents.

Ocean Transportation. The importing country arranges for the ocean transportation of commodities purchased under Title I. At least 50% of the gross tonnage of Title I commodities must be shipped on privately owned U.S. flag commercial vessels to the extent such vessels are available at fair and reasonable rates, in accordance with the Cargo Preference Act (P.L. 664).

General. The following U.S. agricultural commodities are currently being programed/shipped under Title I, P.L. 480: wheat/wheat flour, rice, edible vegetable oil, tobacco and cotton. Feed grains and fortified food products have been eligible for Title I use but none have yet been programed this year. Details of each signed agreement and purchase authorization are described in press releases issued by USDA.

Table I below shows, by commodity, the quantities covered by agreements for which PAs have been issued in FY 76, sales recorded and shipments reported. "TQ" means the transitional quarter from July 1 - September 30, 1976. Beginning on October 1, 1976, the U.S. Government fiscal year will be from October through September.

Table II on the next page summarizes Title I, P.L. 480 agreements signed in fiscal year 1976 during the period July 1, 1975 through April 30, 1976.

Monthly summaries of activity under the Title I, P.L. 480 Sales Program will be included in future issues of this publication. Further information regarding the program may be obtained from the Director, Program Planning Division and the Director, Program Operations Division, Office of the General Sales Manager, USDA, Washington, D.C. 20250.
